

Air 1 radio station fm 90.1, serves a vital function in my area. It is the only station I know that broadcasts a wholesome selection of music that is interesting to teenagers. I believe that it is important to have this station. I support this station because it plays an important role in the community of Christians that do not want to hear the often lewd music and commercials on other stations. I believe that displacing AIR 1 with an LPFM broadcaster would have a negative impact on the youth of the community. Actually, on people of all ages, because I am in my 40s and my friends and I listen to AIR 1
